Plan Review Process, Northern Sacramento Valley Integrated Regional Water
Management Plan Draft Review

Dear Ms. Newlin:

Attached please find the Department of Water Resources (DWR) Draft Review of the Northern Sacramento Valley IRWM Plan. Based on the draft review, the Northern Sacramento Valley IRWM Plan is consistent with the IRWM Planning Act and the related IRWM Plan Standards contained in the 2012 IRWM Grant Program Guidelines.

Pursuant to Appendix H of the Guidelines, the public comment period for this review will begin on June 16, 2014. The draft review will be available for public comments for 30 calendar days on the following website: <http://www.water.ca.gov/irwm/grants/prp.cfm>.

We will inform you of any comments received. After the public comment period ends the link to the draft review will become inactive on the website. DWR will consider comments, and if necessary work with you on any resultant follow up action. DWR will finalize the review and send it to you prior to posting on our website. The final review cover letter will state the plan's applicability in satisfying existing grant agreement conditions and plan eligibility requirements for future IRWM grant solicitations.

The Draft Review consists of a summary of the overall review and an individual review form for each of the 16 Plan Standards. On the individual review forms locations in the plan are noted for applicable material. Although they may be found elsewhere in the plan, these are the locations of the requirements used to show sufficiency with a given standard.

If you have any questions, please contact Ted Daum at (916) 651-9264 or Theodore.Daum@water.ca.gov.

Sincerely,

A handwritten signature in cursive script, reading "Tracie L. Billington".

INTRODUCTION

IRWM planning regions must have an IRWM Plan that has been reviewed and deemed consistent with the 2012 IRWM Plan Standards by DWR for eligibility to receiving Round 3 Proposition 84 funding. This 2012 IRWM Plan Standards Review Form for DWR staff use provides a consistent means in determining whether the 2012 IRWM Guidelines are being addressed in the IRWM Plan. It is part of the Plan Review Process that will begin prior to Round 3 solicitation. The form is similar to a grant application review form in that there is a checklist for each of the 16 Plan Standards and narrative evaluations where required. However, the evaluation is pass/fail; there is no numeric scoring. Each Plan Standard is either sufficient or not based on its associated requirements. Each Standard consists of between one and fourteen requirements. A Yes or No is automatically calculated in each Plan Standard header based on the individual requirement evaluations. In general, a passing score of "C" (i.e. 70% of the requirements for a given Plan Standard) is required for a Standard to pass. Standards with only one or 2 requirements will need one or both of those requirements to pass. Standards with 3 requirements will need at least 2 of the requirements to pass. Standards with 4 or 5 requirements will need at least 3 to pass. Some plan elements are legislated requirements. Such plan elements must be met in order to be considered consistent with plan standards. A summary of the sufficiency of each Standard is automatically calculated on the Standards Summary worksheet. A "No" evaluation indicates that a Standard was not met due to insufficient requirements comprising the Standard. The evaluation for each Plan Standard and any associated insufficiencies is automatically compiled on the Standards Summary page. Additional reviewer comments may be added at the bottom of each standards work sheet.

Note: This review form is meant to be a tool used in conjunction with the 2012 IRWM Guidelines document to assist in the evaluation of IRWM plans. It is not designed to be a substitute for the Guidelines document itself. Reviewers must use the Guidelines in determining plan consistency.

DEFINITION OF TABLE HEADINGS

IRWM Plan Standard: As named in the November 2012 IRWM Prop 84 and 1E Guidelines.

Overall Standard Sufficient: This field is either "YES" or "NO" and is automatically calculated based on the "Sufficient" column described below. If all fields are "y", the overall standard is deemed sufficient. Any entry other than a "y" in the Sufficient column (i.e. "n", "?", not sure, more detail needed, etc.) results in a NO.

Plan Standard Requirements Which Must Be Addressed Fields with an asterisk * are required by legislation to be included in an IRWM Plan.

Requirement	Requirements are taken directly from the November 2012 Guidelines.
Included	Is the Guideline Requirement included in the IRWM Plan? The options are: y = yes, requirement is included in the IRWMP; or n = no, requirement is not included in the IRWMP. If only y or n then presence/absence of the requirement is sufficient for evaluation. If there is a "q" (qualitative) then add a brief narrative, similar to a Grant Application Review public evaluation or supporting information.
Plan Standard Source	
2012 IRWM Grant Program Guidelines Source Page(s)	Page(s) in the Guidelines (November 2012) which pertain to the Requirement.
Legislative Support and/or Other Citations	The CWC or other regulations that pertain to the Requirement, if applicable . This is for reference purposes. The cell links to a weblink of the regulatory code.
Evidence of Sufficiency	
Location of Standard in Grantee IRWM Plan	The page(s) or sections in the IRWM Plan where information on the Requirement can be found. This can be specific paragraphs or entire chapters for more general requirements.
Brief Qualitative Evaluation Narrative	Supporting information for the Requirement if a "q" is in the Included column. This can be just a few sentences or a paragraph and can be taken directly from the IRWM Plan. Comments or supporting information may be entered regardless of whether required.
Sufficient	Is the Guidelines requirement sufficiently represented in the IRWM Plan (y/n).

* If not included as an individual section use Governance, Project Review Process, and Data Management Standards per November 2012 Guidelines, p. 44.

Additional Comments:

While deemed consistent with the 2012 Guidelines Plan Standards, DWR recommends that the following be addressed in future IRWM Plan updates:

Governance Section: The Northern Sacramento Valley Board by-laws do not currently have a process for making formal and informal changes, amendments, or updates to the plan. **Resource Management Strategies:** The plan does not address which RMS will be implemented to meet the Objectives. **Data Management:** The plan did not adequately address the QA/QC measures that will be used. The plan only states that the project proponents are responsible for QA/QC measures, but does not state what these measures are or if they will be standardized between project proponents. **Stakeholder Involvement:** The plan did not describe the roles that stakeholders can occupy in the decision making process. **Climate Change:** The plan did not contain a methodology or program for further data gathering and analysis of prioritized vulnerabilities.

A description of how the chosen form of governance addresses and ensures:							
Public outreach and involvement processes	y/n/q	y	19/36-37	§10540, §10541	Sec. 1.1.3.1 & 3.1	The document states that the Northern Sacramento Valley (NSV) Board meetings and TAC meetings are open to the public. A series of public workshops were held throughout the region to solicit stakeholders needs during the development of plan objectives. A second series of workshops were held throughout the region to solicit stakeholders needs during the project solicitation and prioritization process.	y
Effective decision making	y/n/q	y	19/37		Sec. 1.1.3.2, 3.1.6 & Appendix C	The NSV Board makes the final decisions and the decision making process is described in the plan in general terms - ("e.g. Changes to the Bylaws have been adopted several times to improve the effectiveness of meetings and assure that decision-making is adequately supported. The Bylaws define voting requirements for both making regular decisions [for example, adopting IRWMP Goals and Objectives, providing guidance to the TAC and consultants, etc.] and amending the Bylaws."). Decision making for the Technical Advisory Committee (TAC), an advisory body, is explained as consensus based.	y
Balanced access and opportunity for participation in the IRWM process	y/n/q	y	19/37		Sec. 1.1.3.3	Numerous public meetings were held throughout the region to provide opportunities for engaging stakeholder and public input. Outreach efforts were made with all the tribes and DACs in the region.	y
Effective communication – both internal and external to the IRWM region	y/n/q	y	19/37-38		Sec. 1.1.3.4 & 3.1	These sections describe the communication and outreach methods used.	y
Long term implementation of the IRWM Plan	y/n/q	y	19/38		Sec. 1.1.3.5	The plan describes long-term implementation in the context of future changes to the RWMG Memorandum of Understanding.	y
Coordination with neighboring IRWM efforts and State and federal agencies	y/n/q	y	19/38		Sec. 1.1.3.6, 3.2.2, & 3.2.3	These sections state the coordination with adjacent IRWM regions and state & local agencies. However, the only federal coordination has been with Congressional representatives, Federal agencies were invited to meetings but did not attend. Section 3.2.3 also states that the region does not believe there is a need currently to coordinate with any Federal agencies.	y
The collaborative process(es) used to establish plan objectives	y/n/q	y	19/38		Sec. 1.1.3.7, 1.1.3.3, & 2.1	Draft goals and objectives were developed and presented at a series of TAC meetings where the public and TAC members made substantial changes. A final draft was presented to the NSV Board at a public meeting where additional changes were made. Eventually a final set of goals and objectives were agreed upon and approved at a NSV Board meeting.	y
How interim changes and formal changes to the IRWM Plan will be performed	y/n/q	y	19/38		Sec 1.1.3.8 & 1.1.3.9	The NSV Board will make future changes to describe the authority and process required for formal and informal changes to the IRWM plan. Interim changes to the IRWMP that do not alter either the goals or objectives, such as an updated list of ranked projects, will be considered through adoption of an addendum to the IRWMP and an abbreviated public process through regular or special NSV Board meetings.	y
Updating or amending the IRWM Plan	y/n/q	N	19/38		Sec 1.1.3.8 & 1.1.3.9	Section 1.1.3.8 states that the NSV Board by-laws do not currently have a process for making formal and informal changes, amendments, or updates to the plan. The section also states that the NSV Board will need to make future changes to the by-laws to describe the authority and process required for updating and amending the plan.	N
Publish NOI to prepare/update the plan; adopt the plan in a public meeting	y/n/q	y	35	CWC §10543	Sec. 1.1.3.1 & Appendix D	An NOI to adopt the IRWMP was published in local newspapers throughout the region as shown in Appendix D. Although no information is presented that an NOI to prepare the plan was published and if the plan was adopted in a public meeting, Section 1.1.3.1 states that all NSV Board meetings are open to the public. The addressing of this requirement should be stated in the plan more explicitly.	y
